

After unpacking the Roll-up Sail from the box, follow these simple instructions to attach, unroll and roll up your sail.

Step 1:

Unroll the sail. Place it flat on the ground with the adhesive tape face up. With an assistant or using small objects, such as books, hold the sail flat. Remove the backing from the adhesive tape.

Step 2:

With the paddle horizontal and the back of the paddle facing down (the paddle blade angling away from the ground), carefully line up the paddle shaft with the edge of the sail and gently lower the paddle onto the sail and press lightly to contact the tape. Check to see that the sail is contacting the shaft along its length and that it is straight. Press down on the tape along the length of the paddle to ensure that it is securely attached to the paddle shaft.

Step 3:

Hold the middle of the paddle in one hand. Place the other hand near the blade; start rolling up the sail with this hand. Use the hand in the middle of the paddle to keep the sail tight, so that it rolls up smoothly.

Step 4:

When the sail is completely rolled up, use the middle hand to snap the c-shaped strip in place, and then use both hands to secure the rest of the strip.

Using the Sail:

Grasp the t-shaped handle in one hand. With the other, pull the small cord out and down to unsnap the c-shaped strip. Move the hand that was holding the handle to the middle of the paddle. With your other hand, hold the middle of the c-shape strip and unroll the sail.

Crosswind: Hold the paddle in your downwind hand; keep your arm straight and angled downward at your side (the thumb of your hand pointing down). The paddle should rest on your shoulder and extend down along the length of your arm. The upwind hand grabs the c-shape strip.

Downwind: Hold the paddle in your downwind hand with your elbow bent and your thumb up. The upwind hand grabs the c-shape strip.

Repaired or replacement products will conform to the warranty for the unexpired duration of the warranty period for the original, nonconforming Product. Inventist may use used or repaired material for all warranty claims. THE REMEDY SELECTED BY INVENTIST IN ACCORDANCE WITH THIS PARAGRAPH SHALL BE THE EXCLUSIVE AND SOLE REMEDY FOR ANY BREACH OF WARRANTY.

5. Exclusion of Consequential, Incidental, and Other Damages.

Inventist and its distributors and dealers SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES for breach of any warranty or for damages arising from non-delivery or from the use, misuse, or inability to use the product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.

6. Choice of Law; Disputes; Severability

No action arising out of any claimed breach of warranty or breach of any remedial promise arising out of or relating to this Limited Warranty may be brought more than one (1) year after the cause of action has accrued. If any part of this warranty is found to be void or unenforceable, then the remainder shall have full force and effect, and the invalid provision shall be partially enforced to the maximum extent permitted by law.

Warranty for Consumers Outside the U.S.

For consumers who buy their Solowheel outside the U.S., the terms of the preceding warranty apply. In addition, Inventist grants to such consumers any additional warranty rights prescribed by the domestic statutory law regarding consumer warranties in effect where the consumer buys the Roll-Up Sail, and Inventist does not curtail or limit those rights that cannot be excluded or limited under that law. The U.N. Convention on Contracts for the International Sale of Goods will not apply to the sale of the Roll-Up Sail.
